

## Disclaimer

The following report(s) provides findings from an FDA-initiated query using Sentinel. While Sentinel queries may be undertaken to assess potential medical product safety risks, they may also be initiated for various other reasons. Some examples include determining a rate or count of an identified health outcome of interest, examining medical product use, exploring the feasibility of future, more detailed analyses within Sentinel, and seeking to better understand Sentinel capabilities.

Data obtained through Sentinel are intended to complement other types of evidence such as preclinical studies, clinical trials, postmarket studies, and adverse event reports, all of which are used by FDA to inform regulatory decisions regarding medical product safety. The information contained in this report is provided as part of FDA's commitment to place knowledge acquired from Sentinel in the public domain as soon as possible. Any public health actions taken by FDA regarding products involved in Sentinel queries will continue to be communicated through existing channels.

FDA wants to emphasize that the fact that FDA has initiated a query involving a medical product and is reporting findings related to that query does not mean that FDA is suggesting health care practitioners should change their prescribing practices for the medical product or that patients taking the medical product should stop using it. Patients who have questions about the use of an identified medical product should contact their health care practitioners.

The following report contains a description of the request, request specifications, and results from the modular program run(s).

If you are using a web page screen reader and are unable to access this document, please contact the Sentinel Operations Center for assistance at [info@sentinelsystem.org](mailto:info@sentinelsystem.org).

## Overview for Request: cder\_mpl1r\_wp269

**Request ID:** cder\_mpl1r\_wp269

**Request Description:** In this query, we evaluated trends in utilization of dupilumab in the MarketScan Research Databases.

**Sentinel Routine Querying Module:** Cohort Identification and Descriptive Analysis (CIDA) module, version 12.2.1

**Data Source:** This request was run against the Merative™ MarketScan® Research Database on September 15, 2023. The study period included data from January 1, 2017 to September 30, 2022. Please see Appendix A for the dates of available data used in this report.

**Study Design:** We identified individuals with use of dupilumab, overall and by dupilumab indication, and then characterized use and dispensing patterns by examining all episodes of use occurring after the initial exposure. This is a Type 5 analysis in the Query Request Package (QRP) documentation.

**Exposure of Interest:** We defined the exposure of interest, dupilumab, using National Drug Codes (NDCs). The date of the qualifying dupilumab dispensing was defined as the index date. We created exposure episodes based on the number of days of product supplied per dispensing in the outpatient pharmacy dispensing data. We assessed two versions of each cohort of interest, one version where we bridged together episodes less than seven days apart, and one version where we did not apply any treatment gap allowance. Individuals were allowed to contribute more than one dupilumab use episode to the analyses over the cohort selection period; no incidence washout was enforced. Please see Appendix B for a list of generic and brand names of medical products used to define exposures in this request.

**Cohort Eligibility Criteria:** We required members to be continuously enrolled in health plans with medical and drug coverage for at least 183 days prior to their index dispensing date. A gap in enrollment of up to 45 days was allowed and treated as continuous enrollment. The following age groups were defined: 0-<6 months, 6 months-<6 years, 6-<12 years, 12-<18 years, 18-<80 years, and 80+ years.

**Inclusion Criteria:** We assessed cohorts of dupilumab users overall, and among those with a prior history of a dupilumab indication. We separately assessed the following indication cohorts: any indication, atopic dermatitis, asthma, chronic rhinosinusitis, eosinophilic esophagitis, and prurigo nodularis. For these indication-based cohorts, we required evidence of the indication in the 183 days prior to and including the date of the first valid index-defining exposure. We defined the indications used International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) diagnosis codes. Please see Appendix C for a list of diagnosis codes using to define inclusions in this request.

**Baseline Characteristics:** We evaluated the following demographic characteristics on the index date: age, year, sex, race and ethnicity. We evaluated the following clinical characteristics in the 183 days prior to the index date: combined comorbidity score, any dupilumab indication, individual dupilumab indications (atopic dermatitis, asthma, chronic rhinosinusitis, eosinophilic esophagitis, prurigo nodularis), no evidence of dupilumab indication, and health service utilization intensity metrics. We evaluated the following treatments over three time periods, from 183 days prior to index date to 31 days prior to index date, from 30 days prior to index date to one day prior to index date, and from index date to 30 days after the index date: use of topical glucocorticoids, topical calcineurin inhibitors, other topical prescription therapies, systemic therapies for atopic dermatitis, asthma biologics, oral azithromycin, exacerbation asthma inhalers (short-acting beta agonists (SABA) or short-acting muscarinic-antagonist (SAMA)), oral glucocorticoids, zileuton, montelukast, maintenance asthma inhalers (inhaled corticosteroids (ICS), long-acting beta-agonists (LABA), or long-acting muscarinic-antagonist (LAMA)), proton pump inhibitors, IL-5 mAbs, purine analogues, IL-13 mAbs, systemic non-oral or injectable glucocorticoids, topical capsaicin, topical vitamin D analogues, systemic therapies for prurigo nodularis, and local nasal glucocorticoids. Please see Appendix D for a list of generic and brand names of medical products and Appendix E for a list of ICD-10-CM diagnosis codes used to define baseline characteristics in this request.

**Please see Appendices F, G, and H for the specifications of parameters used in this request and a design diagram.**

**Limitations:** Algorithms to define exposures, inclusion criteria, and characteristics are imperfect and may be misclassified. Therefore, data should be interpreted with this limitation in mind.

### Overview for Request: cder\_mpl1r\_wp269

**Notes:** Please contact the Sentinel Operations Center ([info@sentinelsystem.org](mailto:info@sentinelsystem.org)) for questions and to provide comments/suggestions for future enhancements to this document. For more information on Sentinel's routine querying modules, please refer to the documentation (<https://dev.sentinelsystem.org/projects/SENTINEL/repos/sentinel-routine-querying-tool-documentation/browse>).

## Overview for Request: cder\_mpl1r\_wp269

**Request ID:** cder\_mpl1r\_wp269

**Request Description:** In this query, we evaluated trends in utilization of dupilumab in the MarketScan Research Databases.

**Sentinel Routine Querying Module:** Cohort Identification and Descriptive Analysis (CIDA) module, version 12.2.1

**Data Source:** This request was run against the Merative™ MarketScan® Research Database on September 15, 2023. The study period included data from January 1, 2017 to September 30, 2022. Please see Appendix A for the dates of available data used in this report.

**Study Design:** We identified individuals with use of dupilumab, overall and by dupilumab indication, and then characterized use and dispensing patterns by examining all episodes of use occurring after the initial exposure. This is a Type 5 analysis in the Query Request Package (QRP) documentation.

**Exposure of Interest:** We defined the exposure of interest, dupilumab, using National Drug Codes (NDCs). The date of the qualifying dupilumab dispensing was defined as the index date. We created exposure episodes based on the number of days of product supplied per dispensing in the outpatient pharmacy dispensing data. **Glossary of Terms for Analyses Using  
Cohort Identification and Descriptive Analysis (CIDA) Module\***

**Amount Supplied** - number of units (pills, tablets, vials) dispensed. Net amount per NDC per dispensing.

**Blackout Period** - number of days at the beginning of a treatment episode that events are to be ignored. If an event occurs during the blackout period, the episode is excluded.

**Care Setting** - type of medical encounter or facility where the exposure, event, or condition code was recorded. Possible care settings include: Inpatient Hospital Stay (IP), Non-Acute Institutional Stay (IS), Emergency Department (ED), Ambulatory Visit (AV), and Other Ambulatory Visit (OA). For laboratory results, possible care settings include: Emergency Department (E), Home (H), Inpatient (I), Outpatient (O), or Unknown or Missing (U). The Care Setting, along with the Principal Diagnosis Indicator (PDX), forms the Care Setting/PDX parameter.

**Ambulatory Visit (AV)** - includes visits at outpatient clinics, same-day surgeries, urgent care visits, and other same-day ambulatory hospital encounters, but excludes emergency department encounters.

**Emergency Department (ED)** - includes ED encounters that become inpatient stays (in which case inpatient stays would be a separate encounter). Excludes urgent care visits.

**Inpatient Hospital Stay (IP)** - includes all inpatient stays, same-day hospital discharges, hospital transfers, and acute hospital care where the discharge is after the admission date.

**Non-Acute Institutional Stay (IS)** - includes hospice, skilled nursing facility (SNF), rehab center, nursing home, residential, overnight non-hospital dialysis and other non-hospital stays.

**Other Ambulatory Visit (OA)** - includes other non overnight AV encounters such as hospice visits, home health visits, skilled nursing facility visits, other non-hospital visits, as well as telemedicine, telephone and email consultations.

**Charlson/Elixhauser Combined Comorbidity Score** - calculated based on comorbidities observed during a requester-defined window around the exposure episode start date (e.g., in the 183 days prior to index).

**Code Days** - the minimum number of times the diagnosis must be found during the evaluation period in order to fulfill the algorithm to identify the corresponding patient characteristic.

**Cohort Definition (drug/exposure)** - indicates how the cohort will be defined: 01: Cohort includes only the first valid treatment episode during the query period; 02: Cohort includes all valid treatment episodes during the query period; 03: Cohort includes all valid treatment episodes during the query period until an event occurs.

**Computed Start Marketing Date** - represents the first observed dispensing date among all valid users within a GROUP (scenario) within each Data Partner site.

**Days Supplied** - number of days supplied for all dispensings in qualifying treatment episodes.

**Eligible Members** - number of members eligible for an incident treatment episode (defined by the drug/exposure and event washout periods) with drug and medical coverage during the query period.

**Enrollment Gap** - number of days allowed between two consecutive enrollment periods without breaking a "continuously enrolled" sequence.

**Episodes** - treatment episodes; length of episode is determined by days supplied in one dispensing or consecutive dispensings bridged by the episode gap.

**Episode Gap** - number of days allowed between two (or more) consecutive exposures (dispensings/procedures) to be considered the same treatment episode.

**Event Deduplication** - specifies how events are counted by the Modular Program (MP) algorithm: 0: Counts all occurrences of a health outcome of interest (HOI) during an exposure episode; 1: de-duplicates occurrences of the same HOI code and code type on the same day; 2: de-duplicates occurrences of the same HOI group on the same day (e.g., de-duplicates at the group level).

**Exposure Episode Length** - number of days after exposure initiation that is considered "exposed time."

**Exposure Extension Period** - number of days post treatment period in which the outcomes/events are counted for a treatment episode. Extensions are added after any episode gaps have been bridged.

**Lookback Period** - number of days wherein a member is required to have evidence of pre-existing condition (diagnosis/procedure/drug dispensing).

**Maximum Episode Duration** - truncates exposure episodes after a requester-specified number of exposed days. Applied after any gaps are bridged and extension days added to the length of the exposure episode.

**Member-Years** - sum of all days of enrollment with medical and drug coverage in the query period preceded by an exposure washout period all divided by 365.25.

**Glossary of Terms for Analyses Using  
Cohort Identification and Descriptive Analysis (CIDA) Module\***

**Minimum Days Supplied** - specifies a minimum number of days in length of the days supplied for the episode to be considered.

**Minimum Episode Duration** - specifies a minimum number of days in length of the episode for it to be considered. Applied after any gaps are bridged and extension days added to the length of the exposure episode.

**Monitoring Period** - used to define time periods of interest for both sequential analysis and simple cohort characterization

**Principal Diagnosis (PDX)** - diagnosis or condition established to be chiefly responsible for admission of the patient to the hospital. 'P' = principal diagnosis, 'S' = secondary diagnosis, 'X' = unspecified diagnosis, '.' = blank. Along with the Care Setting values, forms the Caresetting/PDX parameter.

**Query Period** - period in which the modular program looks for exposures and outcomes of interest.

**Switch Evaluation Step Value** - value used to differentiate evaluation step. Each switch pattern can support up to 2 evaluation steps (0 = switch pattern evaluation start; 1 = first evaluation; 2 = second evaluation).

**Switch Gap Inclusion Indicator** - indicator for whether gaps in treatment episodes that are included in a switch episode will be counted as part of the switch episode duration.

**Switch Pattern Cohort Inclusion Date** - indicates which date to use for inclusion into the switch pattern cohort of interest as well as optionally as the index date of the treatment episode initiating the switch pattern. Valid options are the product approval date, product marketing date, other requester defined date, or computed start marketing date.

**Switch Pattern Cohort Inclusion Strategy** - indicates how the switch pattern cohort inclusion date will be used: 01: used only as a switch cohort entry date. First treatment episode dispensing date is used as index for computing time to first switch; 02: used as switch cohort entry date and as initial switch step index date for computing time to first switch.

**Treatment Episode Truncation Indicator** - indicates whether the exposure episode will be truncated at the occurrence of a requester-specified code.

**Washout Period (drug/exposure)** - number of days a user is required to have no evidence of prior exposure (drug dispensing/procedure) and continuous drug and medical coverage prior to an incident treatment episode.

**Washout Period (event/outcome)** - number of days a user is required to have no evidence of a prior event (procedure/diagnosis) and continuous drug and medical coverage prior to an incident treatment episode.

**Years at Risk** - number of days supplied plus any episode gaps and exposure extension periods all divided by 365.25.

\*all terms may not be used in this report

**Table 1a. Characteristics of Dupilumab Use with a 0-day Treatment Gap in the Merative MarketScan Research Databases from January 1, 2017 to September 30, 2022**

| Patient Characteristics                          | No Indication Requirement |                                 |

<sup>1</sup>A patient's episode may be censored due to more than one reason if they occur on the same date. Therefore, the sum of the reasons for censoring may be greater than the total number of patients.

<sup>2</sup>Represents episodes censored due to end of the exposure episode. In as-treated analyses, exposure episodes are defined using days supplied as recorded in outpatient pharmacy dispensing records, and episodes end after days supplied are exhausted or a pre-determined maximum episode duration is met. In point exposure analyses, exposure episodes end when a pre-determined maximum episode duration is met.

<sup>3</sup>Represents episodes censored due to evidence of death. Death data source and completeness varies by Data Partner.

<sup>4</sup>Represents episodes censored due to disenrollment from health plan. Data Partners often artificially assign a "disenrollment" date equal to data end date for members still enrolled on that date. Therefore, a patient may have dual reasons for censoring as "disenrollment" and "end of data" on the same day - this can be interpreted as right-censoring in most cases.

<sup>5</sup>Represents episodes censored due to Data Partner data end date. This end date represents the last day of the most recent year-month in which all of a Data Partner's data tables in the Sentinel Common Data Model have at least 80% of the record count relative to the prior month.

<sup>6</sup>Represents episodes censored due to user-specified study end date.

<sup>1</sup>An episode may be censored due to more than one reason if they occur on the same date. Therefore, the sum of the reasons for censoring may be greater than the total number of episodes.

<sup>2</sup>Represents episodes censored due to end of the exposure episode. In as-treated analyses, exposure episodes are defined using days supplied as recorded in outpatient pharmacy dispensing records, and episodes end after days supplied are exhausted or a pre-determined maximum episode duration is met. In point exposure analyses, exposure episodes end when a pre-determined maximum episode duration is met.

<sup>3</sup>Represents episodes censored due to evidence of death. Death data source and completeness varies by Data Partner.

<sup>4</sup>Represents episodes censored due to disenrollment from health plan. Data Partners often artificially assign a "disenrollment" date equal to data end date for members still enrolled on that date. Therefore, a patient may have dual reasons for censoring as "disenrollment" and "end of data" on the same day - this can be interpreted as right-censoring in most cases.

<sup>5</sup>Represents episodes censored due to Data Partner data end date. This end date represents the last day of the most recent year-month in which all of a Data Partner's data tables in the Sentinel Common Data Model have at least 80% of the record count relative to the prior month.

<sup>6</sup>Represents episodes censored due to user-specified study end date.

| <i>No evidence of chronic_rhinosinusitis</i>                   | N/A                                      | N/A        | N/A               | N/A        |
| <i>No evidence of eoe</i>                                      | N/A                                      | 36,351     | N/A               | N/A        |
| <i>No evidence of prurigo_nodularis</i>                        | N/A                                      | N/A        | N/A               | 37,739     |
| <b>Members with required post-index follow-up</b>              |  |            |                   |            |
| Had sufficient post-index continuous enrollment                | 2,155                                    | 0          | 767               | 0          |
| <b>Final cohort</b>  |  |            |                   |            |
| Number of members  | 2,155                                    | N/A        | 767               | N/A        |

<sup>1</sup>Patients can meet multiple inclusion and/or exclusion criteria; therefore, the total number of patients excluded overall may not equal the sum of all patients in each criterion.

**Appendix A. Dates of Available Data for Each Data Partner (DP) as of Request Distribution Date**

| Masked DP ID | DP Start Date | DP End Date <sup>1</sup> |
|--------------|---------------|--------------------------|
| DP01         | 01/01/2010    | 09/30/2022               |

<sup>1</sup>End Date represents the earliest of: (1) query end date, or (2) last day of the most recent month for which all of a Data Partner's data tables (enrollment, dispensing, etc.) have at least 80% of the record count relative to the prior month.

**Appendix B. List of Generic and Brand Names of Medical Products Used to Define Exposures in this Request**

| Generic Name     | Brand Name       |
|------------------|------------------|
| <b>Dupilumab</b> |                  |
| dupilumab        | Dupixent Pen     |
| dupilumab        | Dupixent Syringe |

**Appendix C. List of International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Codes Used to Define Inclusion Criteria in this Request**

| Code                          | Description  | Code Category | Code Type |
|-------------------------------|--|---------------|-----------|
| <b>Atopic Dermatitis</b>      |  |               |           |
| L20                           | Atopic dermatitis                                    | Diagnosis     | ICD-10-CM |
| L20.0                         | Besnier's prurigo                                    | Diagnosis     | ICD-10-CM |
| L20.8                         | Other atopic dermatitis                              | Diagnosis     | ICD-10-CM |
| L20.81                        | Atopic neurodermatitis                               | Diagnosis     | ICD-10-CM |
| L20.82                        | Flexural eczema                                      | Diagnosis     | ICD-10-CM |
| L20.83                        | Infantile (acute) (chronic) eczema                   | Diagnosis     | ICD-10-CM |
| L20.84                        | Intrinsic (allergic) eczema                          | Diagnosis     | ICD-10-CM |
| L20.89                        | Other atopic dermatitis                              | Diagnosis     | ICD-10-CM |
| L20.9                         | Atopic dermatitis, unspecified                       | Diagnosis     | ICD-10-CM |
| <b>Asthma</b>                 |  |               |           |
| J45                           | Asthma   | Diagnosis     | ICD-10-CM |
| J45.2                         | Mild intermittent asthma                             | Diagnosis     | ICD-10-CM |
| J45.20                        | Mild intermittent asthma, uncomplicated              | Diagnosis     | ICD-10-CM |
| J45.21                        | Mild intermittent asthma with (acute) exacerbation   | Diagnosis     | ICD-10-CM |
| J45.22                        | Mild intermittent asthma with status asthmaticus     | Diagnosis     | ICD-10-CM |
| J45.3                         | Mild persistent asthma                               | Diagnosis     | ICD-10-CM |
| J45.30                        | Mild persistent asthma, uncomplicated                | Diagnosis     | ICD-10-CM |
| J45.31                        | Mild persistent asthma with (acute) exacerbation     | Diagnosis     | ICD-10-CM |
| J45.32                        | Mild persistent asthma with status asthmaticus       | Diagnosis     | ICD-10-CM |
| J45.4                         | Moderate persistent asthma                           | Diagnosis     | ICD-10-CM |
| J45.40                        | Moderate persistent asthma, uncomplicated            | Diagnosis     | ICD-10-CM |
| J45.41                        | Moderate persistent asthma with (acute) exacerbation | Diagnosis     | ICD-10-CM |
| J45.42                        | Moderate persistent asthma with status asthmaticus   | Diagnosis     | ICD-10-CM |
| J45.5                         | Severe persistent asthma                             | Diagnosis     | ICD-10-CM |
| J45.50                        | Severe persistent asthma, uncomplicated              | Diagnosis     | ICD-10-CM |
| J45.51                        | Severe persistent asthma with (acute) exacerbation   | Diagnosis     | ICD-10-CM |
| J45.52                        | Severe persistent asthma with status asthmaticus     | Diagnosis     | ICD-10-CM |
| J45.9                         | Other and unspecified asthma                         | Diagnosis     | ICD-10-CM |
| J45.90                        | Unspecified asthma                                   | Diagnosis     | ICD-10-CM |
| J45.901                       | Unspecified asthma with (acute) exacerbation         | Diagnosis     | ICD-10-CM |
| J45.902                       | Unspecified asthma with status asthmaticus           | Diagnosis     | ICD-10-CM |
| J45.909                       | Unspecified asthma, uncomplicated                    | Diagnosis     | ICD-10-CM |
| J45.99                        | Other asthma   | Diagnosis     | ICD-10-CM |

| J32.8                         | Other chronic sinusitis                              | Diagnosis     | ICD-10-CM |
| J32.9                         | Chronic sinusitis, unspecified                       | Diagnosis     | ICD-10-CM |

**Appendix C. List of International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Codes Used to Define Inclusion Criteria in this Request**

| Code                            | Description  | Code Category | Code Type |
|---------------------------------|--|---------------|-----------|
| J33                             | Nasal polyp  | Diagnosis     | ICD-10-CM |
| J33.0                           | Polyp of nasal cavity                                    | Diagnosis     | ICD-10-CM |
| J33.1                           | Polypoid sinus degeneration                              | Diagnosis     | ICD-10-CM |
| J33.8                           | Other polyp of sinus                                     | Diagnosis     | ICD-10-CM |
| J33.9                           | Nasal polyp, unspecified                                 | Diagnosis     | ICD-10-CM |
| J45.998                         | Other asthma   | Diagnosis     | ICD-10-CM |
| <b>Eosinophilic Esophagitis</b> |  |               |           |
| K20                             | Esophagitis  | Diagnosis     | ICD-10-CM |
| K20.0                           | Eosinophilic esophagitis                                 | Diagnosis     | ICD-10-CM |
| K20.8                           | Other esophagitis  | Diagnosis     | ICD-10-CM |
| K20.80                          | Other esophagitis without bleeding                       | Diagnosis     | ICD-10-CM |
| K20.81                          | Other esophagitis with bleeding                          | Diagnosis     | ICD-10-CM |
| K20.9                           | Esophagitis, unspecified                                 | Diagnosis     | ICD-10-CM |
| K29.0                           | Acute gastritis  | Diagnosis     | ICD-10-CM |
| K29.00                          | Acute gastritis without bleeding                         | Diagnosis     | ICD-10-CM |
| K29.01                          | Acute gastritis with bleeding                            | Diagnosis     | ICD-10-CM |
| K29.3                           | Chronic superficial gastritis                            | Diagnosis     | ICD-10-CM |
| K29.30                          | Chronic superficial gastritis without bleeding           | Diagnosis     | ICD-10-CM |
| K29.31                          | Chronic superficial gastritis with bleeding              | Diagnosis     | ICD-10-CM |
| K29.4                           | Chronic atrophic gastritis                               | Diagnosis     | ICD-10-CM |
| K29.40                          | Chronic atrophic gastritis without bleeding              | Diagnosis     | ICD-10-CM |
| K29.41                          | Chronic atrophic gastritis with bleeding                 | Diagnosis     | ICD-10-CM |
| K29.5                           | Unspecified chronic gastritis                            | Diagnosis     | ICD-10-CM |
| K29.50                          | Unspecified chronic gastritis without bleeding           | Diagnosis     | ICD-10-CM |
| K29.51                          | Unspecified chronic gastritis with bleeding              | Diagnosis     | ICD-10-CM |
| K29.6                           | Other gastritis  | Diagnosis     | ICD-10-CM |
| K29.60                          | Other gastritis without bleeding                         | Diagnosis     | ICD-10-CM |
| K29.61                          | Other gastritis with bleeding                            | Diagnosis     | ICD-10-CM |
| K29.7                           | Gastritis, unspecified                                   | Diagnosis     | ICD-10-CM |
| K29.70                          | Gastritis, unspecified, without bleeding                 | Diagnosis     | ICD-10-CM |
| K29.71                          | Gastritis, unspecified, with bleeding                    | Diagnosis     | ICD-10-CM |
| K52.2                           | Allergic and dietetic gastroenteritis and colitis        | Diagnosis     | ICD-10-CM |
| K52.21                          | Food protein-induced enterocolitis syndrome              | Diagnosis     | ICD-10-CM |
| K52.22                          | Food protein-induced enteropathy                         | Diagnosis     | ICD-10-CM |
| K52.29                          | Other allergic and dietetic gastroenteritis and colitis  | Diagnosis     | ICD-10-CM |
| K52.8                           | Other specified noninfective gastroenteritis and colitis | Diagnosis     | ICD-10-CM |
| K52.81                          | Eosinophilic gastritis or gastroenteritis                | Diagnosis     | ICD-10-CM |
| K52.89                          | Other specified noninfective gastroenteritis and colitis | Diagnosis     | ICD-10-CM |
| K52.9                           | Noninfective gastroenteritis and colitis, unspecified    | Diagnosis     | ICD-10-CM |
| <b>Prurigo Nodularis</b>        |  |               |           |
| L28.1                           | Prurigo nodularis  | Diagnosis     | ICD-10-CM |

**Appendix D. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

| Generic Name   | Brand Name                 |
|--|----------------------------|
| <b>Topical Glucocorticoids</b>                         |                            |
| HYDROCORTISONE   | First-Hydrocortisone       |
| alclometasone dipropionate                             | alclometasone              |
| amcinonide   | amcinonide                 |
| benzoyl peroxide/hydrocortisone                        | Vanoxide-HC                |
| betamethasone dipropionate                             | Sernivo                    |
| betamethasone dipropionate                             | betamethasone dipropionate |
| betamethasone dipropionate                             | betamethasone, augmented   |
| betamethasone dipropionate/propylene glycol            | Diprolene (augmented)      |
| betamethasone dipropionate/propylene glycol            | Diprolene AF               |
| betamethasone dipropionate/propylene glycol            | betamethasone, augmented   |
| betamethasone valerate                                 | Luxiq                      |
| betamethasone valerate                                 | betamethasone valerate     |
| clobetasol propionate                                  | Clobex                     |
| clobetasol propionate                                  | Clodan                     |
| clobetasol propionate                                  | Cormax                     |
| clobetasol propionate                                  | Impeklo                    |
| clobetasol propionate                                  | Impoyz                     |
| clobetasol propionate                                  | Olux                       |
| clobetasol propionate                                  | Temovate                   |
| clobetasol propionate                                  | clobetasol                 |
| clobetasol propionate/emollient base                   | Olux-E                     |
| clobetasol propionate/emollient base                   | Tovet Emollient            |
| clobetasol propionate/emollient base                   | clobetasol-emollient       |
| clobetasol propionate/emollient combination no.65      | Tovet Kit                  |
| clobetasol propionate/gauze bandage/silicone, adhesive | Tasoprol                   |
| clobetasol propionate/hydrocolloid dressing            | Clobetavix                 |
| clobetasol propionate/niacinamide                      | Chlooxia                   |
| clobetasol propionate/niacinamide                      | Oxiachlo                   |
| clobetasol propionate/niacinamide                      | clobetasol-niacinamide     |
| clobetasol propionate/skin cleanser combination no.28  | Clodan Kit                 |
| clocortolone pivalate                                  | Cloderm                    |
| clocortolone pivalate                                  | clocortolone pivalate      |
| desonide   | DesOwen                    |
| desonide   | DesRx                      |
| desonide   | Desonate                   |
| desonide   | Tridesilon                 |
| desonide   | Verdeso                    |
| desonide   | desonide                   |
| desoximetasone   | Topicort                   |
| desoximetasone   | desoximetasone             |
| desoximetasone/niacinamide                             | Fluoxia                    |
| desoximetasone/niacinamide                             | desoximetasone-niacinamide |
| diflorasone diacetate                                  | Psorcon                    |
| diflorasone diacetate                                  | diflorasone                |
| diflorasone diacetate/emollient base                   | ApexiCon E                 |
| fluocinolone acetonide                                 | Capex                      |
| fluocinolone acetonide                                 | Derma-Smoothe/FS Body Oil  |

**Appendix D. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

| Generic Name  | Brand Name                   |
|---|------------------------------|
| fluocinolone acetonide                                    | Synalar                      |
| fluocinolone acetonide                                    | fluocinolone                 |
| fluocinolone acetonide/emollient combination no.65        | Synalar Cream Kit            |
| fluocinolone acetonide/emollient combination no.65        | Synalar Ointment Kit         |
| fluocinolone acetonide/niacinamide                        | Tetoxia                      |
| fluocinolone acetonide/niacinamide                        | fluocinolone-niacinamide     |
| fluocinolone acetonide/shower cap                         | Derma-Smoothe/FS Scalp Oil   |
| fluocinolone acetonide/shower cap                         | fluocinolone and shower cap  |
| fluocinolone acetonide/skin cleanser comb no.28           | Synalar TS                   |
| fluocinolone acetonide/skin cleanser no.10/silicone, tape | Xilapak                      |
| fluocinolone acetonide/urea/silicone, adhesive            | Noxipak                      |
| fluocinonide  | Vanos                        |
| fluocinonide  | fluocinonide                 |
| fluocinonide/dimethicone                                  | Fluopar                      |
| fluocinonide/emollient base                               | Fluocinonide-E               |
| fluocinonide/emollient base                               | fluocinonide-emollient       |
| fluocinonide/silicone, adhesive                           | Fluovix                      |
| fluocinonide/silicone, adhesive                           | Fluovix Plus                 |
| flurandrenolide   | Cordran                      |
| flurandrenolide   | Cordran Tape Large Roll      |
| flurandrenolide   | Cordran Tape Small Roll      |
| flurandrenolide   | Nolix                        |
| flurandrenolide   | flurandrenolide              |
| fluticasone propionate                                    | Beser                        |
| fluticasone propionate                                    | Cutivate                     |
| fluticasone propionate                                    | fluticasone propionate       |
| fluticasone propionate/emollient combination no.65        | Beser Kit                    |
| halcinonide   | Halog                        |
| halcinonide   | halcinonide                  |
| halobetasol propionate                                    | Bryhali                      |
| halobetasol propionate                                    | Lexette                      |
| halobetasol propionate                                    | Ultravate                    |
| halobetasol propionate                                    | halobetasol propionate       |
| halobetasol propionate/lactic acid                        | Ultravate X                  |
| hydrocortisone  | Advanced Allergy Collect Kit |
| hydrocortisone  | Ala-Cort                     |
| hydrocortisone  | Ala-Scalp                    |
| hydrocortisone  | Anusol-HC                    |
| hydrocortisone  | Procto-Med HC                |
| hydrocortisone  | Procto-Pak                   |
| hydrocortisone  | Proctocort                   |
| hydrocortisone  | Proctosol HC                 |
| hydrocortisone  | Proctozone-HC                |
| hydrocortisone  | Scalacort                    |
| hydrocortisone  | Texacort                     |
| hydrocortisone  | hydrocortisone               |
| hydrocortisone acetate                                    | MiCort-HC                    |
| hydrocortisone acetate/aloe vera                          | Nucort                       |

**Appendix D. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

| Generic Name  | Brand Name                     |
|---|--------------------------------|
| hydrocortisone acetate/iodoquinol/aloe polysaccharides no.2 | Alcortin A                     |
| hydrocortisone acetate/iodoquinol/aloe polysaccharides no.2 | hydrocortisone-iodoquinl-aloe2 |
| hydrocortisone acetate/iodoquinol/aloe vera                 | Vytone                         |

**Appendix E. List of Healthcare Common Procedure Coding System, Level II (HCPCS and ICD-10) Codes Used to Define Baseline Characteristics in this Request**

| Code  | Description  | Code Category | Code Type |
|---|--|---------------|-----------|
| J33   | Nasal polyp  | Diagnosis     | ICD-10-CM |
| J33.0   | Polyp of nasal cavity                                    | Diagnosis     | ICD-10-CM |
| J33.1   | Polypoid sinus degeneration                              | Diagnosis     | ICD-10-CM |
| J33.8   | Other polyp of sinus                                     | Diagnosis     | ICD-10-CM |
| J33.9   | Nasal polyp, unspecified                                 | Diagnosis     | ICD-10-CM |
| J45.998   | Other asthma   | Diagnosis     | ICD-10-CM |
| <b>Eosinophilic Esophagitis</b>                 |  |               |           |
| K20   | Esophagitis  | Diagnosis     | ICD-10-CM |
| K20.0   | Eosinophilic esophagitis                                 | Diagnosis     | ICD-10-CM |
| K20.8   | Other esophagitis  | Diagnosis     | ICD-10-CM |
| K20.80  | Other esophagitis without bleeding                       | Diagnosis     | ICD-10-CM |
| K20.81  | Other esophagitis with bleeding                          | Diagnosis     | ICD-10-CM |
| K20.9   | Esophagitis, unspecified                                 | Diagnosis     | ICD-10-CM |
| K29.0   | Acute gastritis  | Diagnosis     | ICD-10-CM |
| K29.00  | Acute gastritis without bleeding                         | Diagnosis     | ICD-10-CM |
| K29.01  | Acute gastritis with bleeding                            | Diagnosis     | ICD-10-CM |
| K29.3   | Chronic superficial gastritis                            | Diagnosis     | ICD-10-CM |
| K29.30  | Chronic superficial gastritis without bleeding           | Diagnosis     | ICD-10-CM |
| K29.31  | Chronic superficial gastritis with bleeding              | Diagnosis     | ICD-10-CM |
| K29.4   | Chronic atrophic gastritis                               | Diagnosis     | ICD-10-CM |
| K29.40  | Chronic atrophic gastritis without bleeding              | Diagnosis     | ICD-10-CM |
| K29.41  | Chronic atrophic gastritis with bleeding                 | Diagnosis     | ICD-10-CM |
| K29.5   | Unspecified chronic gastritis                            | Diagnosis     | ICD-10-CM |
| K29.50  | Unspecified chronic gastritis without bleeding           | Diagnosis     | ICD-10-CM |
| K29.51  | Unspecified chronic gastritis with bleeding              | Diagnosis     | ICD-10-CM |
| K29.6   | Other gastritis  | Diagnosis     | ICD-10-CM |
| K29.60  | Other gastritis without bleeding                         | Diagnosis     | ICD-10-CM |
| K29.61  | Other gastritis with bleeding                            | Diagnosis     | ICD-10-CM |
| K29.7   | Gastritis, unspecified                                   | Diagnosis     | ICD-10-CM |
| K29.70  | Gastritis, unspecified, without bleeding                 | Diagnosis     | ICD-10-CM |
| K29.71  | Gastritis, unspecified, with bleeding                    | Diagnosis     | ICD-10-CM |
| K52.2   | Allergic and dietetic gastroenteritis and colitis        | Diagnosis     | ICD-10-CM |
| K52.21  | Food protein-induced enterocolitis syndrome              | Diagnosis     | ICD-10-CM |
| K52.22  | Food protein-induced enteropathy                         | Diagnosis     | ICD-10-CM |
| K52.29  | Other allergic and dietetic gastroenteritis and colitis  | Diagnosis     | ICD-10-CM |
| K52.8   | Other specified noninfective gastroenteritis and colitis | Diagnosis     | ICD-10-CM |
| K52.81  | Eosinophilic gastritis or gastroenteritis                | Diagnosis     | ICD-10-CM |
| K52.89  | Other specified noninfective gastroenteritis and colitis | Diagnosis     | ICD-10-CM |
| K52.9   | Noninfective gastroenteritis and colitis, unspecified    | Diagnosis     | ICD-10-CM |
| <b>Prurigo Nodularis</b>                        |  |               |           |
| L28.1   | Prurigo nodularis  | Diagnosis     | ICD-10-CM |
| <b>Systemic Therapies for Atopic Dermatitis</b> |  |               |           |
| J7500   | Azathioprine, oral, 50 mg                                | Procedure     | HCPCS     |
| J7501   | Azathioprine, parenteral, 100 mg                         | Procedure     | HCPCS     |
| J7502   | Cyclosporine, oral, 100 mg                               | Procedure     | HCPCS     |
| J7515   | Cyclosporine, oral, 25 mg                                | Procedure     | HCPCS     |
| J7517   | Mycophenolate mofetil, oral, 250 mg                      | Procedure     | HCPCS     |

**Appendix E. List of Healthcare Common Procedure Coding System, Level II (HCPCS and ICD-10) Codes Used to Define Baseline Characteristics in this Request**

| Code   | Description   | Code Category | Code Type |
|--|---|---------------|-----------|
| J8610  | Methotrexate, oral, 2.5 mg  | Procedure     | HCPCS     |
| J9250  | Methotrexate sodium, 5 mg   | Procedure     | HCPCS     |
| J9260  | Methotrexate sodium, 50 mg  | Procedure     | HCPCS     |
| <b>Asthma Biologics</b>                            |   |               |           |
| J0517  | Injection, benralizumab, 1 mg   | Procedure     | HCPCS     |
| J2182  | Injection, mepolizumab, 1 mg  | Procedure     | HCPCS     |
| J2356  | Injection, tezepelumab-ekko, 1 mg   | Procedure     | HCPCS     |
| J2357  | Injection, omalizumab, 5 mg   | Procedure     | HCPCS     |
| J2786  | Injection, reslizumab, 1 mg   | Procedure     | HCPCS     |
| <b>Oral Azithromycin</b>                           |   |               |           |
| Q0144  | Azithromycin dihydrate, oral, capsules/powder, 1 g  | Procedure     | HCPCS     |
| <b>Exacerbation Asthma Inhalers (SABA or SAMA)</b> |   |               |           |
| J7602  | Albuterol, all formulations including separated isomers, inhalation solution, FDA-approved final product, noncompounded, administered through DME, concentrated form, per 1 mg (Albuterol) or per 0.5 mg Levalbuterol | Procedure     | HCPCS     |
| J7603  | Albuterol, all formulations including separated isomers, inhalation solution, FDA-approved final product, noncompounded, administered through DME, unit dose, per 1 mg (Albuterol) or per 0.5 mg Levalbuterol         | Procedure     | HCPCS     |
| J7607  | Levalbuterol, inhalation solution, compounded product, administered through DME, concentrated form, 0.5 mg  | Procedure     | HCPCS     |
| J7609  | Albuterol, inhalation solution, compounded product, administered through DME, unit dose, 1 mg   | Procedure     | HCPCS     |
| J7610  | Albuterol, inhalation solution, compounded product, administered through DME, concentrated form, 1 mg   | Procedure     | HCPCS     |
| J7611  | Albuterol, inhalation solution, FDA-approved final product, noncompounded, administered through DME, concentrated form, 1 mg  | Procedure     | HCPCS     |
| J7612  | Levalbuterol, inhalation solution, FDA-approved final product, noncompounded, administered through DME, concentrated form, 0.5 mg   | Procedure     | HCPCS     |
| J7613  | Albuterol, inhalation solution, FDA-approved final product, noncompounded, administered through DME, unit dose, 1 mg  | Procedure     | HCPCS     |
| J7614  | Levalbuterol, inhalation solution, FDA-approved final product, noncompounded, administered through DME, unit dose, 0.5 mg   | Procedure     | HCPCS     |
| J7615  | Levalbuterol, inhalation solution, compounded product, administered through DME, unit dose, 0.5 mg  | Procedure     | HCPCS     |
| J7616  | Albuterol, up to 5 mg and ipratropium bromide, up to 1 mg, compounded inhalation solution, administered through DME   | Procedure     | HCPCS     |
| J7617  | Levalbuterol, up to 2.5 mg and ipratropium bromide, up to 1 mg, compounded inhalation solution, administered through DME  | Procedure     | HCPCS     |
| J7618  | Albuterol, all formulations including separated isomers, inhalation solution administered through DME, concentrated form, per 1 mg (albuterol) or per 0.5 mg (levalbuterol)   | Procedure     | HCPCS     |
| J7619  | Albuterol, all formulations including separated isomers, inhalation solution administered through DME, unit dose, per 1 mg (albuterol) or per 0.5 mg  | Procedure     | HCPCS     |
| J7620  | Albuterol, up to 2.5 mg and ipratropium bromide, up to 0.5 mg, FDA-approved final product, noncompounded, administered through DME  | Procedure     | HCPCS     |

**Appendix E. List of Healthcare Common Procedure Coding System, Level II (HCPCS and ICD-10) Codes Used to Define Baseline Characteristics in this Request**

| Code   | Description   | Code Category | Code Type |
|--|---|---------------|-----------|
| J7621  | Albuterol, all formulations, including separated isomers, up to 5 mg (albuterol) or 2.5 mg (levoalbuterol), and ipratropium bromide, up to 1 mg, compounded inhalation solution, administered through dme | Procedure     | HCPCS     |
| J7625  | Albuterol sulfate, 0.5%, per ml, inhalation solution administered through DME   | Procedure     | HCPCS     |
| J7644  | Ipratropium bromide, inhalation solution, FDA-approved final product, noncompounded, administered through DME, unit dose form, per mg   | Procedure     | HCPCS     |
| J7645  | Ipratropium bromide, inhalation solution, compounded product, administered through DME, unit dose form, per mg  | Procedure     | HCPCS     |
| K0504  | Albuterol, inhalation solution administered through DME, concentrated form, per milligram   | Procedure     | HCPCS     |
| K0505  | Albuterol, inhalation solution administered through DME, unit dose form, per milligram  | Procedure     | HCPCS     |
| <b>Oral Glucocorticoids</b>                              |   |               |           |
| J7506  | Prednisone, oral, per 5 mg  | Procedure     | HCPCS     |
| J7509  | Methylprednisolone, oral, per 4 mg  | Procedure     | HCPCS     |
| J7510  | Prednisolone, oral, per 5 mg  | Procedure     | HCPCS     |
| J7512  | Prednisone, immediate release or delayed release, oral, 1 mg  | Procedure     | HCPCS     |
| J8540  | Dexamethasone, oral, 0.25 mg  | Procedure     | HCPCS     |
| <b>Maintenance Asthma Inhalers (ICS or LABA or LAMA)</b> |   |               |           |
| J7606  | Formoterol fumarate, inhalation solution, FDA-approved final product, noncompounded, administered through DME, unit dose form, 20 mcg   | Procedure     | HCPCS     |
| J7626  | Budesonide, inhalation solution, FDA-approved final product, noncompounded, administered through DME, unit dose form, up to 0.5 mg  | Procedure     | HCPCS     |
| J7627  | Budesonide, inhalation solution, compounded product, administered through DME, unit dose form, up to 0.5 mg   | Procedure     | HCPCS     |
| J7633  | Budesonide, inhalation solution, FDA-approved final product, noncompounded, administered through DME, concentrated form, per 0.25 mg  | Procedure     | HCPCS     |
| J7634  | Budesonide, inhalation solution, compounded product, administered through DME, concentrated form, per 0.25 mg   | Procedure     | HCPCS     |
| J7641  | Flunisolide, inhalation solution, compounded product, administered through DME, unit dose, per mg   | Procedure     | HCPCS     |
| <b>Proton Pump Inhibitors</b>                            |   |               |           |
| C9113  | Injection, pantoprazole sodium, per vial  | Procedure     | HCPCS     |
| S0164  | Injection, pantoprazole sodium, 40 mg   | Procedure     | HCPCS     |
| <b>IL-5 mAbs</b>   |   |               |           |
| J0517  | Injection, benralizumab, 1 mg   | Procedure     | HCPCS     |
| J2182  | Injection, mepolizumab, 1 mg  | Procedure     | HCPCS     |
| J2786  | Injection, reslizumab, 1 mg   | Procedure     | HCPCS     |

| J7633   | Budesonide, inhalation solution, FDA-approved final product, noncompounded, administered through DME, concentrated form, per 0.25 mg | Procedure     | HCPCS     |
| J7634   | Budesonide, inhalation solution, compounded product, administered through DME, concentrated form, per 0.25 mg                        | Procedure     | HCPCS     |

**Appendix E. List of Healthcare Common Procedure Coding System, Level II (HCPCS and ICD-10) Codes Used to Define Baseline Characteristics in this Request**

| Code  | Description   | Code Category | Code Type |
|-------|---|---------------|-----------|
| J7641 | Flunisolide, inhalation solution, compounded product, administered through DME, unit dose, per mg | Procedure     | HCPCS     |
| S1090 | Mometasone furoate sinus implant, 370 micrograms  | Procedure     | HCPCS     |

#### Appendix F. Specifications Defining Parameters for this Request

This request executed the Cohort Identification and Descriptive Analysis (CIDA) tool [12.1.2] to investigate the use of dupilumab by indication and age group in the MarketScan Research Databases.

**Query period:** January 1, 2017 - Most recently available data (September 30, 2022)

**Coverage requirement:** Medical & Drug Coverage

**Pre-index enrollment requirement:** 183 days

**Post-index requirement:** 0 days

**Enrollment gap:** 45 days

**Age groups:** 0-<6 months, 6 months-<6 years, 6-<12, 12-<18, 18-<80, 80+ years

**Stratifications:** Age group, sex, year-month

**Envelope macro:** Reclassify encounters during inpatient stay as inpatient

**Freeze data:** No

#### Exposure
