

## Disclaimer

The following report(s) provides findings from an FDA-initiated query using Sentinel. While Sentinel queries may be undertaken to assess potential medical product safety risks, they may also be initiated for various other reasons. Some examples include determining a rate or count of an identified health outcome of interest, examining medical product use, exploring the feasibility of future, more detailed analyses within Sentinel, and seeking to better understand Sentinel capabilities.

Data obtained through Sentinel are intended to complement other types of evidence such as preclinical studies, clinical trials, postmarket studies, and adverse event reports, all of which are used by FDA to inform regulatory decisions regarding medical product safety. The information contained in this report is provided as part of FDA's commitment to place knowledge acquired from Sentinel in the public domain as soon as possible. Any public health actions taken by FDA regarding products involved in Sentinel queries will continue to be communicated through existing channels.

FDA wants to emphasize that the fact that FDA has initiated a query involving a medical product and is reporting findings related to that query does not mean that FDA is suggesting health care practitioners should change their prescribing practices for the medical product or that patients taking the medical product should stop using it. Patients who have questions about the use of an identified medical product should contact their health care practitioners.

The following report contains a description of the request, request specifications, and results from the modular program run(s).

If you are using a web page screen reader and are unable to access this document, please contact the Sentinel Operations Center for assistance at [info@sentinelssystem.org](mailto:info@sentinelssystem.org).

## Overview for Request: cder\_mpl1p\_wp082

**Request ID:** cder\_mpl1p\_wp082

**Request Description:** In this report, we used the Sentinel Distributed Database (SDD) to examine adherence to FDA's Risk Evaluation and Mitigation Strategy (REMS) of absolute neutrophil count (ANC) screening recommendations for clozapine users.

**Sentinel Routine Querying Module:** Cohort Identification and Descriptive Analysis (CIDA) tool, version 12.1.2, with the Multiple Events module and custom programming.

**Data Source:** We distributed this query to six Sentinel Data Partners (DP) on October 6, 2023. In addition to data on members with commercial health insurance, this report also contains data on beneficiaries with Medicare fee for service (FFS) medical and Part D drug coverage, Medicaid/CHIP coverage, and dual Medicare-Medicaid coverage. This report includes data from January 1, 2010 through April 30, 2023. Please see Appendix A for a list of dates of available data for each DP.

**Study Design:** We identified incident clozapine treatment episodes and evaluated ANC screening events in various windows during said episodes among a cohort of members who were at least 12 years of age at the index date, which was defined as the first date of dispensing after all inclusion, exclusion, and washout criteria were met. For each ANC screening evaluation window, we reported descriptive statistics on the number of ANC screenings, length of gaps between ANC screenings, and monthly rate of ANC screenings. We used each of these metrics to capture different aspects of adherence to the FDA REMS of ANC screening recommendations by reporting the number of clozapine episodes falling into different categories of each metric in the various ANC screening evaluation windows. In addition to describing these adherence metrics overall, this report also stratified them by various demographic and clinical characteristics at baseline, including U.S. Census Bureau region. We assessed the ANC screening adherence among clozapine episodes in three separate time periods: from January 1, 2010 to September 30, 2015; from October 1, 2015 to December 31, 2019; and from January 1, 2020 to April 30, 2023. Please see Appendix B for a list of states and territories included in Each Census Bureau Region. This is a Type 2 analysis with the multiple events add-on in the Query Request Package (QRP) documentation.

**Cohort Eligibility Criteria:** We required members to be enrolled in health plans with medical and drug coverage in the 30 days prior to the index date and from the index date through the earlier of the end of the ANC screening evaluation window or the end of the exposure episode; gaps in coverage of up to 30 days were allowed and treated as continuous enrollment. The following age groups were included in the cohorts: 12-18, 19-35, 36-50, 51-64, 65-74, and 75+ years.

**Primary Exposure of Interest:** We defined the exposure of interest, clozapine, using outpatient dispensing data and National Drug Codes (NDCs). We defined incident exposure as no prior evidence of clozapine dispensed in the 30 days prior to the first qualifying (index) exposure. Each qualifying dispensing of clozapine (index) was included in the cohort; cohort re-entry was allowed. Please see Appendix C for a list of generic and brand names of medical products used to define exposures in this request.

**Follow-Up Time:** We created exposure episodes based on the number of days of clozapine supplied per dispensing in the outpatient pharmacy dispensing data. If multiple dispensings were supplied on the same day, we used the maximum days supplied to define the episode. We bridged together dispensings separated by gaps of less than 30 days. Minimum clozapine episode length depended on the ANC screening evaluation window being considered and included: 1) at least one day in duration, 2) at least six months in duration (184 days), 3) at least one year in duration (366 days), and 4) at least two years in duration (731 days). Follow-up began on the index date and continued until the first occurrence of: 1) disenrollment; 2) death; 3) the end of the data provided by each Data Partner; 4) the end of the query period; or 5) the end of the clozapine exposure episode.

### Overview for Request: cder\_mpl1p\_wp082

**Sensitivity Analysis:** To assess the impact of a longer clozapine washout period on ANC screening adherence metrics, we also evaluated ANC screening events in the [1, 182] days after index among clozapine episodes of at least one day in duration where only episodes without evidence of clozapine in the six months (183 days) prior to the index exposure were included. In each of the three time periods, members with qualifying exposure episodes were required to be continuously enrolled in the six months (183 days) prior to the index event through the earlier of the end of the ANC screening evaluation window or the end of the exposure episode.

**Events of Interest:** The event of interest was an ANC screening, defined using Revenue, Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS) procedure codes, as well as Revenue, CPT-4, and HCPCS laboratory codes. We evaluated ANC screenings during different windows relative to the clozapine exposure episode index date (day 0). The ANC screening evaluation window varied for each required minimum clozapine episode duration:

- For clozapine episodes at least one day in duration, the ANC screening evaluation windows were:
  - o [-30, 0] days of clozapine index ("Look 1"), and
  - o [1, 182] days of clozapine index ("Look 2", "Look 2, Sensitivity 183-Days Washout").
- For clozapine episodes at least six months in duration, the ANC screening evaluation windows were:
  - o [1, 182] days of clozapine index ("Look 5") and
  - o [183, 364] days of clozapine index ("Look 3").
- For clozapine episodes at least one-year in duration, the ANC screening evaluation windows were:
  - o [183, 364] days of clozapine index ("Look 6") and
  - o [365, 729] days of clozapine index ("Look 4").
- For clozapine episodes at least two years in duration, the ANC screening evaluation window was [365, 729] days of clozapine index ("Look 7").

For Looks 2-7, we required additional continuous enrollment after clozapine index through the end of the ANC screening evaluation window, regardless of when clozapine follow-up ended. Please see Appendix D for the list of Revenue, CPT-4, and HCPCS procedure and laboratory codes used to define ANC screenings in this request.

**Adherence Criteria:** As mentioned above, we used three metrics to assess various aspects of adherence to the FDA REMS of ANC screening recommendations for clozapine users. As in the recommendations, the adherence definitions in this query vary based on duration of clozapine treatment. We report descriptive statistics for each adherence metric, but rather than define clozapine episodes as “adherent” vs. “non-adherent,” we additionally report the number of clozapine episodes by classification of each metric as follows:

- All gap lengths between ANC screenings:  $\leq 10$  days,  $\leq 17$  days, and  $\leq 33$  days
- Total number of ANC screenings during evaluation window: At least one and 36 or more
  - o Only reported for Looks 1, 5, 6, and 7 because minimum required clozapine duration ensures comparability across evaluation windows
  - o Further classified as 1-4, 5-7, 8-11, 12-14, 15-20, 25-27, 28-30, 31-35, and  $\geq 36$  for Looks 5-7
  - o Further classified as  $\geq 25$  for Look 5
  - o Further classified as  $\geq 12$  for Looks 6 and 7
- Monthly rate of ANC screenings during evaluation window:  $\geq 1$ ,  $\geq 2$ , and  $\geq 4$  per month
  - o Not reported for Look 1 since no recommendations exist for this evaluation window

### Overview for Request: cder\_mpl1p\_wp082

**Baseline Characteristics:** We assessed recent drug utilization in the 30 days prior to and including the day of clozapine initiation. The specific drugs of interest were: lithium, atypical antipsychotics, typical antipsychotics, any antipsychotic, and antidepressants. We assessed the following clinical characteristics in patients' entire available enrollment history up to and including the day of clozapine initiation using codes present the Chronic Conditions Warehouse (CCW) code lists<sup>1</sup>: alcohol use disorders, anxiety disorders, attention-deficit/hyperactivity disorder (ADHD) and other behavioral disorders, ADHD Only subset, bipolar disorders, depression, depressive disorders, drug use disorders, opioid use disorders (including sub-categories), personality disorders, schizophrenia, and schizophrenia and other psychotic disorders. We additionally calculated the Charlson/Elixhauser combined comorbidity score<sup>2</sup>, and health service utilization over patients' entire available enrollment history. Please see Appendices E and F for a list of generic and brand names of medical products, International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM), International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM), International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS), and HCPCS codes used to define baseline characteristics in this request.

**Please see Appendices G, H, I, J, and K for the specifications defining parameters and the design diagrams for this request.**

**Limitations:** Algorithms used to define primary events, secondary events, and baseline characteristics are imperfect; thus, it is possible that there may be misclassification. Therefore, data should be interpreted with this limitation in mind.

**Notes:** Please contact the Sentinel Operations Center ([info@sentinelssystem.org](mailto:info@sentinelssystem.org)) for questions and to provide comments/suggestions for future enhancements to this document. For more information on Sentinel's routine querying modules, please refer to the documentation (<https://dev.sentinelssystem.org/projects/SENTINEL/repos/sentinel-routine-querying-tool-documentation/browse>).

**Glossary of Terms for Analyses Using  
Cohort Identification and Descriptive Analysis (CIDA) Tool\***

**Amount Supplied** - number of units (pills, tablets, vials) dispensed. Net amount per NDC per dispensing.

**Blackout Period** - number of days at the beginning of a treatment episode that events are to be ignored. If an event occurs during the blackout period, the episode is excluded.

**Care Setting** - type of medical encounter or facility where the exposure, event, or condition code was recorded. Possible care settings include: Inpatient Hospital Stay (IP), Non-Acute Institutional Stay (IS), Emergency Department (ED), Ambulatory Visit (AV), and Other Ambulatory Visit (OA). For laboratory results, possible care settings include: Emergency Department (E), Home (H), Inpatient (I), Outpatient (O), or Unknown or Missing (U). The Care Setting, along with the Principal Diagnosis Indicator (PDX), forms

**Ambulatory Visit (AV)** - includes visits at outpatient clinics, same-day surgeries, urgent care visits, and other same-day ambulatory hospital encounters, but excludes emergency department encounters.

**Emergency Department (ED)** - includes ED encounters that become inpatient stays (in which case inpatient stays would be a separate encounter). Excludes urgent care visits.

**Inpatient Hospital Stay (IP)** - includes all inpatient stays, same-day hospital discharges, hospital transfers, and acute hospital care where the discharge is after the admission date.

**Non-Acute Institutional Stay (IS)** - includes hospice, skilled nursing facility (SNF), rehab center, nursing home, residential, overnight non-hospital dialysis and other non-hospital stays.

**Other Ambulatory Visit (OA)** - includes other non overnight AV encounters such as hospice visits, home health visits, skilled nursing facility visits, other non-hospital visits, as well as telemedicine, telephone and email consultations.

**Cohort Definition (drug/exposure)** - indicates how the cohort will be defined: 01: Cohort includes only the first valid treatment episode during the query period; 02: Cohort includes all valid treatment episodes during the query period; 03: Cohort includes all valid treatment episodes during the query period until an event occurs.

**Days Supplied** - number of days supplied for all dispensings in qualifying treatment episodes.

**Eligible Members** - number of members eligible for an incident treatment episode (defined by the drug/exposure and event washout periods) with drug and medical coverage during the query period.

**Enrollment Gap** - number of days allowed between two consecutive enrollment periods without breaking a "continuously enrolled"

**Episodes** - treatment episodes; length of episode is determined by days supplied in one dispensing or consecutive dispensings

**Episode Gap** - number of days allowed between two (or more) consecutive exposures (dispensings/procedures) to be considered

**Evaluation Period** - number of days relative to index wherein a member is required to have evidence of a condition

**Event Deduplication** - specifies how events are counted by the Modular Program (MP) algorithm: 0: Counts all occurrences of a health outcome of interest (HOI) during an exposure episode; 1: de-duplicates occurrences of the same HOI code and code type on the same day; 2: de-duplicates occurrences of the same HOI group on the same day (e.g., de-duplicates at the group level).

**Exposure Episode Length** - number of days after exposure initiation that is considered "exposed time."

**Exposure Extension Period** - number of days post treatment period in which the outcomes/events are counted for a treatment episode. Extensions are added after any episode gaps have been bridged.

**Maximum Episode Duration** - truncates exposure episodes after a requester-specified number of exposed days. Applied after any gaps are bridged and extension days added to the length of the exposure episode.

**Member-Years** - sum of all days of enrollment with medical and drug coverage in the query period preceded by an exposure

**Minimum Days Supplied** - specifies a minimum number of days in length of the days supplied for the episode to be considered.

**Minimum Episode Duration** - specifies a minimum number of days in length of the episode for it to be considered. Applied after any gaps are bridged and extension days added to the length of the exposure episode.

**Monitoring Period** - used to define time periods of interest for both sequential analysis and simple cohort characterization

**Principal Diagnosis (PDX)** - diagnosis or condition established to be chiefly responsible for admission of the patient to the hospital.

'P' = principal diagnosis, 'S' = secondary diagnosis, 'X' = unspecified diagnosis, '.' = blank. Along with the Care Setting values, forms

**Query Period** - period in which the modular program looks for exposures and outcomes of interest.

**Treatment Episode Truncation Indicator** - indicates whether the exposure episode will be truncated at the occurrence of a

**Glossary of Terms for Analyses Using  
Cohort Identification and Descriptive Analysis (CIDA) Tool\***

**Washout Period (drug/exposure)** - number of days a user is required to have no evidence of prior exposure (drug dispensing/procedure) and continuous drug and medical coverage prior to an incident treatment episode.

**Washout Period (event/outcome)** - number of days before exposure episode that a user is required to have no evidence of a prior event (procedure/diagnosis) and continuous drug and medical coverage prior to an incident treatment episode.

**Years at Risk** - number of days supplied plus any episode gaps and exposure extension periods all divided by 365.25.

\*all terms may not be used in this report

**Appendix A. Dates of Available Data for Each Data Partner (DP) as of Request Distribution Date (October 6, 2023)**

Masked ID	DP Start Date	DP End Date <sup>1</sup>
DP01	01/01/2007	01/31/2023
DP02	01/01/2008	04/30/2023
DP03	01/01/2014	12/31/2020
DP04	01/01/2010	12/31/2022
DP05	01/01/2008	12/31/2022
DP06	01/01/2006	02/28/2023

<sup>1</sup> End Date represents the earliest of: (1) query end date, or (2) most recent year-month of data for which all of a Data Partner's data tables (enrollment, dispensing, etc.) have at least 80% of the record count relative to the prior month.

**Appendix B. List of States and U.S. Territories per Census Bureau (CB) Region**

Census Bureau Region	States and U.S. Territories
Midwest (MW)	Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin
Northeast (NE)	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, New Jersey, New York, Pennsylvania
South (S)	Alabama, Arkansas, Delaware, District of Columbia, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, West Virginia
West (W)	Arizona, Alaska, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming
Other	American Samoa, Guam, Marshall Islands, Micronesia, Northern Mariana Islands, Palau, Puerto Rico, U.S. Virgin Islands
Invalid	Recorded geographic location does not match any identifiers per the Sentinel Common Data Model definition
Missing	Missing from claims

**Appendix C. List of Generic and Brand Names of Medical Products Used to Define Exposures in this Request**

Generic Name	Brand Name
<b>Clozapine</b>	
clozapine	CLOZAPINE
clozapine	Clozapine
clozapine	Clozaril
clozapine	FAZACLO
clozapine	FazaClo
clozapine	VERSACLOZ
clozapine	Clozaril
clozapine	FazaClo
clozapine	Versacloz
clozapine	clozapine

**Appendix D. List of Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System, Level II (HCPCS), Revenue (RE), Procedure and Laboratory Codes Used to Define Exposures in this Request**

<b>Code</b>	<b>Description</b>	<b>Procedure, Laboratory</b>	<b>Code Type</b>
<b>Absolute Neutrophil Count (ANC)</b>			
0305	Laboratory-Hematology	Procedure, Laboratory	Revenue
80050	General health panel This panel must include the following: Comprehensive metabolic panel (80053) Blood count, complete (CBC), automated and automated differential WBC count (85025 or 85027 and 85004) OR Blood count, complete (CBC), automated (85027) and appropriate manual differential WBC count (85007 or 85009) Thyroid stimulating hormone (TSH) (84443)	Procedure, Laboratory	CPT-4
80055	Obstetric panel This panel must include the following: Blood count, complete (CBC), automated and automated differential WBC count (85025 or 85027 and 85004) OR Blood count, complete (CBC), automated (85027) and appropriate manual differential WBC count (85007 or 85009) Hepatitis B surface antigen (HBsAg) (87340) Antibody, rubella (86762) Syphilis test, non-treponemal antibody; qualitative (eg, VDRL, RPR, ART) (86592) Antibody screen, RBC, each serum technique (86850) Blood typing, ABO (86900) AND Blood typing, Rh (D) (86901)	Procedure, Laboratory	CPT-4
85004	Blood count; automated differential WBC count	Procedure, Laboratory	CPT-4
85007	Blood count; blood smear, microscopic examination with manual differential WBC count	Procedure, Laboratory	CPT-4
85008	Blood count; blood smear, microscopic examination without manual differential WBC count	Procedure, Laboratory	CPT-4
85009	Blood count; manual differential WBC count, buffy coat	Procedure, Laboratory	CPT-4
85025	Blood count; complete (CBC), automated (Hgb, Hct, RBC, WBC and platelet count) and automated differential WBC count	Procedure, Laboratory	CPT-4
85027	Blood count; complete (CBC), automated (Hgb, Hct, RBC, WBC and platelet count)	Procedure, Laboratory	CPT-4
85032	Blood count; manual cell count (erythrocyte, leukocyte, or platelet) each	Procedure, Laboratory	CPT-4
85048	Blood count; leukocyte (WBC), automated	Procedure, Laboratory	CPT-4
G0306	Complete CBC, automated (Hgb, HCT, RBC, WBC, without platelet count) and automated WBC differential count	Procedure, Laboratory	HCPCS
G0307	Complete CBC, automated (Hgb, HCT, RBC, WBC; without platelet count)	Procedure, Laboratory	HCPCS

**Appendix E. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

Generic Name	Brand Name
<b>Lithium</b>	
lithium carbonate	Lithobid
lithium carbonate	lithium carbonate
lithium citrate	lithium citrate
<b>Atypical Anti-Psychotics</b>	
aripiprazole	Abilify
aripiprazole	Abilify Discmelt
aripiprazole	Abilify Maintena
aripiprazole	Abilify MyCite
aripiprazole	Abilify MyCite Maintenance Kit
aripiprazole	Abilify MyCite Starter Kit
aripiprazole	aripiprazole
aripiprazole lauroxil	Aristada
aripiprazole lauroxil, submicronized	Aristada Initio
asenapine	Secuado
asenapine maleate	Saphris
asenapine maleate	Saphris (black cherry)
asenapine maleate	asenapine maleate
brexipiprazole	Rexulti
cariprazine HCl	Vraylar
iloperidone	Fanapt
lumateperone tosylate	Caplyta
lurasidone HCl	Latuda
olanzapine	Zyprexa
olanzapine	Zyprexa Zydis
olanzapine	olanzapine
olanzapine pamoate	Zyprexa Relprevv
olanzapine/fluoxetine HCl	Symbyax
olanzapine/fluoxetine HCl	olanzapine-fluoxetine
olanzapine/samidorphan malate	Lybalvi
paliperidone	Invega
paliperidone	paliperidone
paliperidone palmitate	Invega Hafyera
paliperidone palmitate	Invega Sustenna
paliperidone palmitate	Invega Trinza
pimavanserin tartrate	Nuplazid
quetiapine fumarate	Seroquel
quetiapine fumarate	Seroquel XR

**Appendix E. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

<b>Generic Name</b>	<b>Brand Name</b>
quetiapine fumarate	quetiapine
risperidone	Perseris
risperidone	Risperdal
risperidone	Risperdal M-TAB
risperidone	risperidone
risperidone microspheres	Risperdal Consta
ziprasidone HCl	Geodon
ziprasidone HCl	ziprasidone HCl
ziprasidone mesylate	Geodon
ziprasidone mesylate	ziprasidone mesylate
<b>Typical Anti-Psychotics</b>	
chlorpromazine HCl	chlorpromazine
fluphenazine HCl	fluphenazine HCl
fluphenazine decanoate	fluphenazine decanoate
haloperidol	haloperidol
haloperidol decanoate	Haldol Decanoate
haloperidol decanoate	haloperidol decanoate
haloperidol lactate	Haldol
haloperidol lactate	haloperidol lactate
loxapine	Adasuve
loxapine succinate	Loxitane
loxapine succinate	loxapine succinate
molindone HCl	Moban
molindone HCl	molindone
perphenazine	perphenazine
perphenazine/amitriptyline HCl	Duo-Vil 2-10
perphenazine/amitriptyline HCl	Duo-Vil 2-25
perphenazine/amitriptyline HCl	perphenazine-amitriptyline
pimozide	Orap
pimozide	pimozide
thioridazine HCl	thioridazine
thiothixene	Navane
thiothixene	thiothixene
trifluoperazine HCl	trifluoperazine
<b>All Anti-Psychotics (Typical and Atypical)</b>	
aripiprazole	Abilify
aripiprazole	Abilify Discmelt
aripiprazole	Abilify Maintena

**Appendix E. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

risperidone microspheres	Risperdal Consta
thioridazine HCl	thioridazine
thiothixene	Navane
thiothixene	thiothixene
trifluoperazine HCl	trifluoperazine
ziprasidone HCl	Geodon
ziprasidone HCl	ziprasidone HCl
ziprasidone mesylate	Geodon
ziprasidone mesylate	ziprasidone mesylate

**Anti-Depressants**

amitriptyline HCl	amitriptyline
amitriptyline HCl/chlordiazepoxide	Limbitrol
amitriptyline HCl/chlordiazepoxide	amitriptyline-chlordiazepoxide
amoxapine	amoxapine
brexanolone	Zulresso
bupropion HBr	Aplenzin
bupropion HCl	Budeprion SR
bupropion HCl	Budeprion XL
bupropion HCl	Forfivo XL
bupropion HCl	Wellbutrin
bupropion HCl	Wellbutrin SR
bupropion HCl	Wellbutrin XL

**Appendix E. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

Generic Name	Brand Name
bupropion HCl	bupropion HCl
bupropion HCl/dietary supplement combination no.15	Appbutamone-D
bupropion HCl/dietary supplement combination no.16	Appbutamone
citalopram hydrobromide	Celexa
citalopram hydrobromide	citalopram
clomipramine HCl	Anafranil
clomipramine HCl	clomipramine
desipramine HCl	Norpramin
desipramine HCl	desipramine
desvenlafaxine	Khedezla
desvenlafaxine	desvenlafaxine
desvenlafaxine fumarate	desvenlafaxine fumarate
desvenlafaxine succinate	Pristiq
desvenlafaxine succinate	desvenlafaxine succinate
dextromethorphan HBr/bupropion HCl	Auvelity
doxepin HCl	Silenor
doxepin HCl	doxepin
duloxetine HCl	Cymbalta
duloxetine HCl	Drizalma Sprinkle
duloxetine HCl	Irenka
duloxetine HCl	duloxetine
escitalopram oxalate	Lexapro
escitalopram oxalate	escitalopram oxalate
esketamine HCl	Spravato
fluoxetine HCl	Prozac
fluoxetine HCl	Prozac Weekly
fluoxetine HCl	Rapiflux
fluoxetine HCl	Sarafem
fluoxetine HCl	Selfemra
fluoxetine HCl	fluoxetine
fluoxetine HCl/dietary supplement no.17	Gaboxetine
fluoxetine HCl/dietary supplement no.8	Sentroxatine
fluvoxamine maleate	Luvox CR
fluvoxamine maleate	fluvoxamine
imipramine HCl	Tofranil
imipramine HCl	imipramine HCl
imipramine pamoate	Tofranil-PM
imipramine pamoate	imipramine pamoate

**Appendix E. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

Generic Name	Brand Name
isocarboxazid	Marplan
levomilnacipran HCl	Fetzima
maprotiline HCl	maprotiline
milnacipran HCl	Savella
mirtazapine	Remeron
mirtazapine	Remeron SolTab
mirtazapine	mirtazapine
nefazodone HCl	nefazodone
nortriptyline HCl	Pamelor
nortriptyline HCl	nortriptyline
olanzapine/fluoxetine HCl	Symbyax
olanzapine/fluoxetine HCl	olanzapine-fluoxetine
paroxetine HCl	Paxil
paroxetine HCl	Paxil CR
paroxetine HCl	paroxetine HCl
paroxetine mesylate	Pexeva
perphenazine/amitriptyline HCl	Duo-Vil 2-10
perphenazine/amitriptyline HCl	Duo-Vil 2-25
perphenazine/amitriptyline HCl	perphenazine-amitriptyline
phenelzine sulfate	Nardil
phenelzine sulfate	phenelzine
protriptyline HCl	Vivactil
protriptyline HCl	protriptyline
selegiline	Emsam
sertraline HCl	Zoloft
sertraline HCl	sertraline
tranylcypromine sulfate	Parnate
tranylcypromine sulfate	tranylcypromine
trazodone HCl	Desyrel
trazodone HCl	Oleptro ER
trazodone HCl	trazodone
trazodone HCl/dietary supplement no.8	Trazamine
trimipramine maleate	Surmontil
trimipramine maleate	trimipramine
venlafaxine HCl	Effexor
venlafaxine HCl	Effexor XR
venlafaxine HCl	venlafaxine
venlafaxine besylate	venlafaxine besylate

**Appendix E. List of Generic and Brand Names of Medical Products Used to Define Baseline Characteristics in this Request**

<b>Generic Name</b>	<b>Brand Name</b>
vilazodone HCl	Viibryd
vilazodone HCl	vilazodone
vortioxetine hydrobromide	Brintellix
vortioxetine hydrobromide	Trintellix
<b>Opioid Use Disorder (OUD 1) (defined as OUD 2, 3, or 4)</b>	
buprenorphine	Sublocade
buprenorphine HCl	Probuphine
buprenorphine HCl	Subutex
buprenorphine HCl	buprenorphine HCl
buprenorphine HCl/naloxone HCl	Bunavail
buprenorphine HCl/naloxone HCl	Suboxone
buprenorphine HCl/naloxone HCl	Zubsolv
buprenorphine HCl/naloxone HCl	buprenorphine-naloxone
<b>Opioid Use Disorder 4 (OUD 4)</b>	
buprenorphine	Sublocade
buprenorphine HCl	Probuphine
buprenorphine HCl	Subutex
buprenorphine HCl	buprenorphine HCl
buprenorphine HCl/naloxone HCl	Bunavail
buprenorphine HCl/naloxone HCl	Suboxone
buprenorphine HCl/naloxone HCl	Zubsolv
buprenorphine HCl/naloxone HCl	buprenorphine-naloxone

**Appendix F. List of Healthcare Common Procedure Coding System, Level II (HCPCS), International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM), International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM), and International Classification of Diseases, Tenth Revision, Procedural Coding System (ICD-10-PCS) Diagnosis and Procedure Codes Used to Define Baseline Characteristics in this Request**

Code	Description	Code Category	Code Type
<b>ADHD and Other Behavior Disorders</b>			
312.00	Undersocialized conduct disorder, aggressive type, unspecified	Diagnosis	ICD-9-CM
312.01	Undersocialized conduct disorder, aggressive type, mild	Diagnosis	ICD-9-CM
312.02	Undersocialized conduct disorder, aggressive type, moderate	Diagnosis	ICD-9-CM
312.03	Undersocialized conduct disorder, aggressive type, severe	Diagnosis	ICD-9-CM

Code	Description	Code Category	Code Type
G2070	Medication assisted treatment, buprenorphine (implant insertion); weekly bundle including dispensing and/or administration, substance use counseling, individual and group therapy, and toxicology testing if performed (provision of the services by a Medicare-enrolled opioid treatment program)	Procedure	HCPCS
G2071	Medication assisted treatment, buprenorphine (implant removal); weekly bundle including dispensing and/or administration, substance use counseling, individual and group therapy, and toxicology testing if performed (provision of the services by a Medicare-enrolled opioid treatment program)	Procedure	HCPCS
G2072	Medication assisted treatment, buprenorphine (implant insertion and removal); weekly bundle including dispensing and/or administration, substance use counseling, individual and group therapy, and toxicology testing if performed (provision of the services by a Medicare-enrolled opioid treatment program)	Procedure	HCPCS
G2073	Medication assisted treatment, naltrexone; weekly bundle including dispensing and/or administration, substance use counseling, individual and group therapy, and toxicology testing if performed (provision of the services by a Medicare-enrolled opioid treatment program)	Procedure	HCPCS
G2078	Take home supply of methadone; up to 7 additional day supply (provision of the services by a Medicare-enrolled opioid treatment program); list separately in addition to code for primary procedure	Procedure	HCPCS
G2079	Take home supply of buprenorphine (oral); up to 7 additional day supply (provision of the services by a Medicare-enrolled opioid treatment program); list separately in addition to code for primary procedure	Procedure	HCPCS
H0020	Alcohol and/or drug services; methadone administration and/or service (provision of the drug by a licensed program)	Procedure	HCPCS
J0571	Buprenorphine, oral, 1 mg	Procedure	HCPCS
J0572	Buprenorphine/naloxone, oral, less than or equal to 3 mg buprenorphine	Procedure	HCPCS
J0573	Buprenorphine/naloxone, oral, greater than 3 mg, but less than or equal to 6 mg buprenorphine	Procedure	HCPCS
J0574	Buprenorphine/naloxone, oral, greater than 6 mg, but less than or equal to 10 mg buprenorphine	Procedure	HCPCS
J0575	Buprenorphine/naloxone, oral, greater than 10 mg buprenorphine	Procedure	HCPCS
J0592	Injection, buprenorphine HCl, 0.1 mg	Procedure	HCPCS
J1230	Injection, methadone HCl, up to 10 mg	Procedure	HCPCS
S0109	Methadone, oral, 5 mg	Procedure	HCPCS

**Appendix G. Specifications Defining Parameters for this Request**

This request executed the Cohort Identification and Descriptive Analysis (CIDA) module, version 12.1.2 to estimate rates of ANC screening adherence among clozapine users in the Sentinel Distributed Database (SDD).

**Query period:** Multiple Query Periods, specified per scenario. See below.  
**Coverage requirement:** Medical & Drug Coverage  
**Pre-index enrollment requirement:** Multiple Pre-Index Enrollment Requirements. See below.  
**Post-index enrollment requirement:** 0 days  
**Post-episode enrollment requirement for Type 2 analyses:** 0 days  
**Enrollment gap:** 30 days  
**Age groups:** 12-18, 19-35, 36-50, 51-64, 65-74, 75+ years  
**Stratifications:** Year-quarter, Geographic Census region  
**Restrictions:** No  
**Envelope macro:** Reclassify encounters during inpatient stay as inpatient  
**Distribution of index-defining codes:** No  
**Never-exposed cohort:** No  
**Freeze data:** No

<sup>1</sup>EpiCount is the measure used to count the total number of ANC screenings during the evaluation windows. And EpiRate is the monthly rate (1 month=30 days) of ANC screenings during the evaluation windows.

International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM), International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-NDC codes are checked against First Data Bank's "FDB MedKnowledge®"

\*N/A: Not applicable

ANC = Absolute Neutrophil Count

**Appendix J. Specifications Defining Stockpiling Parameters Used for this Request**

**Stockpiling**

<b>Stockpiling Group</b>	<b>Same Day Dispensing Processing for Days Supplied</b>	<b>Same Day Dispensing Processing for Amount Supplied</b>	<b>Range of Allowable Days Supplied Values</b>	<b>Range of Allowable Amount Supplied Values</b>	<b>Overlap Percentage</b>
clozapine	Uses maximum	Uses maximum	Value must be greater than 0 (0<-HIGH)	Value must be greater than 0 (0<-HIGH)	n/a

\*N/A: Not applicable

**Appendix K. Summary of Clozapine Exposure Duration and Absolute Neutrophil Count (ANC) Screening Event Assessment Windows for Each Cohort "Look" and Design Diagrams for Each Adherence Criteria Type (Gap, Rate, Count)**

		Observation window (Day*)			
		-30 to 0	1 to 182	183 to 364	365 to 729
Total episode duration (number of days)	1 to 183	Look 1	Look 2	Look 3	Look 4
	184 to 365				
	366 to 730				
	>730				

\*Day 0 refers to the date of clozapine dispensing preceded by no evidence of clozapine days supply in the prior 30 days

		Observation window (Day*)			
		-30 to 0	1 to 182	183 to 364	365 to 729
Total episode duration (number of days)	1 to 183				
	184 to 365		Look 5	Look 6	Look 7
	366 to 730				
	>730				

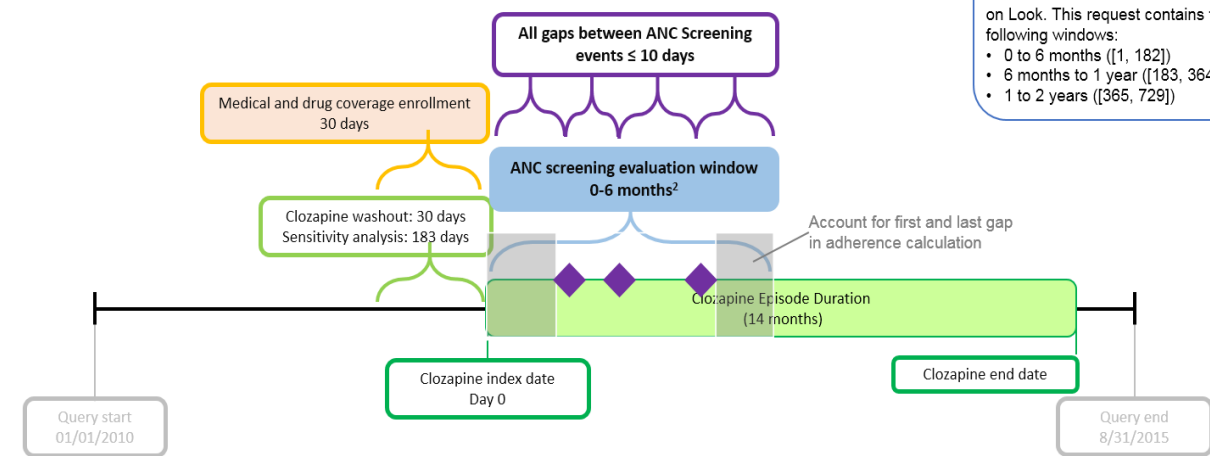

\*Day 0 refers to the date of clozapine dispensing preceded by no evidence of clozapine days supply in the prior 30 days

Gap Adherence: all ANC screening gaps  $\leq 10$  days<sup>1</sup> in [1, earliest of 182 or clozapine episode censoring\*]

$$\% \text{ adherent episodes} = \frac{\# \text{ clozapine episodes with gaps of 1-10 days between ANC screenings during 0-6 months}^2 \text{ of clozapine use}}{\# \text{ clozapine episodes of any duration}}$$

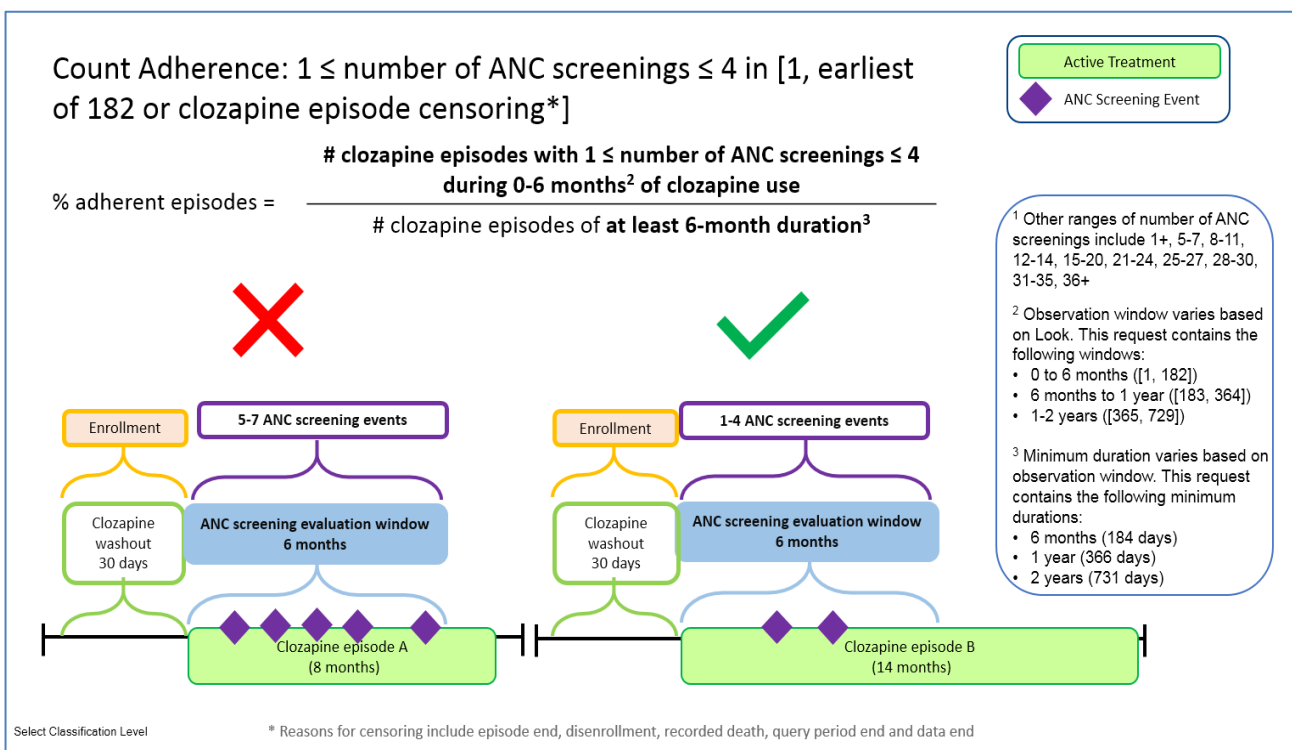

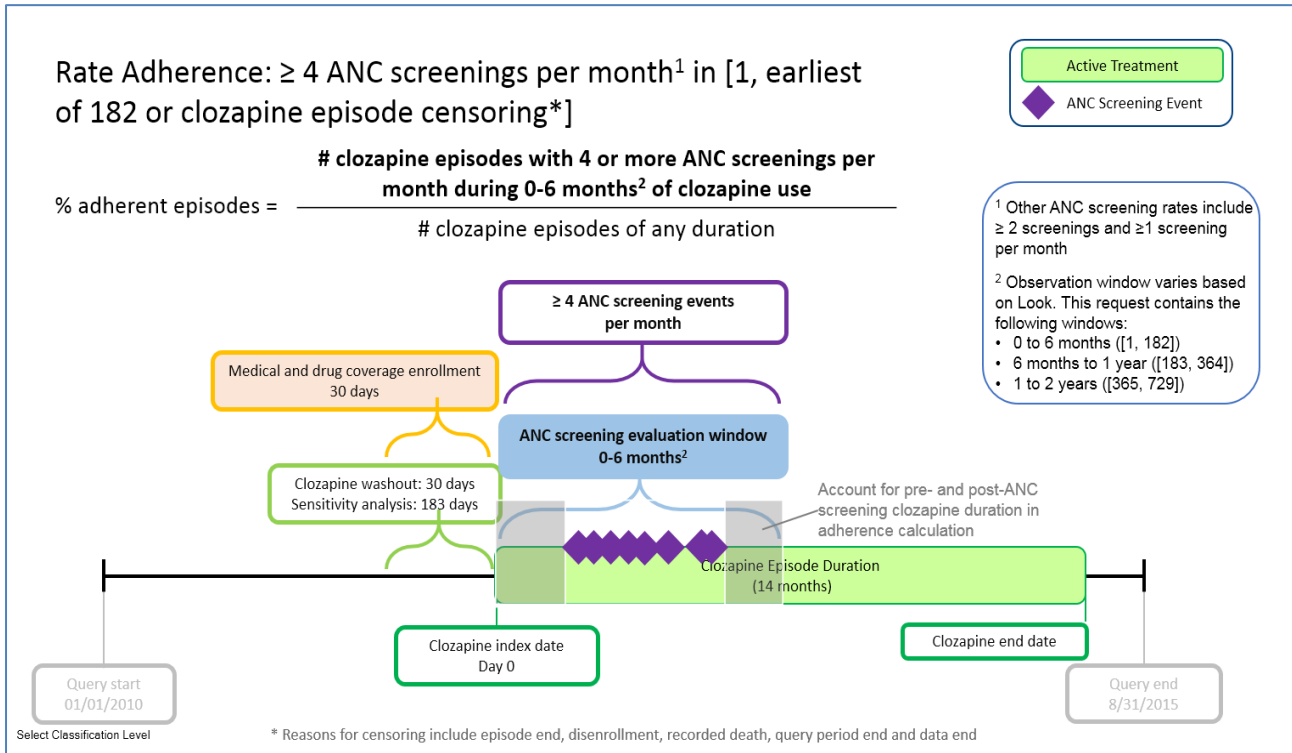

- <sup>1</sup> Other ANC screening gaps include  $\leq 17$  days and  $\leq 33$  days
- <sup>2</sup> Observation window varies based on Look. This request contains the following windows:
  - 0 to 6 months ([1, 182])
  - 6 months to 1 year ([183, 364])
  - 1 to 2 years ([365, 729])

\* Reasons for censoring include episode end, disenrollment, recorded death, query period end and data end

**Appendix K. Summary of Clozapine Exposure Duration and Absolute Neutrophil Count (ANC) Screening Event Assessment Windows for Each Cohort "Look" and Design Diagrams for Each Adherence Criteria Type (Gap, Rate, Count)**

## Appendix L. Report Content Guide

---

### ANC Screening Adherence Metrics

#### Gap Length

- Proportion of episodes with all gaps meeting the “adherent” definition”
- Descriptive statistics on the days between ANC screenings\* in the evaluation window while on treatment)
- Tables 1Bx describe gap length by select baseline characteristics

#### Number of Screenings

- Proportion of episodes with an “adherent” number of ANC screenings
- Descriptive statistics on the number of on-treatment ANC screenings in the evaluation window
- Tables 1Cx describe number of screenings by select baseline characteristics
  - o Only reported for Looks 1, 5, 6, and 7 because minimum required clozapine duration ensures comparability across evaluation windows

#### Monthly Screening Rate

- Proportion of episodes with an “adherent” rate of ANC screenings
- Descriptive statistics on the monthly rate of ANC screenings while on treatment
- Tables 1Dx describe monthly screening rate by select baseline characteristics
  - o Not reported for Look 1 since no recommendations exist for this evaluation window

**Appendix L. Report Content Guide (Continued)**

**Groups Described in Tables 1A – 1D**

Each group below has 4 “Table 1s”:

- A. Baseline Characteristics
- B. ANC Screening Gaps by Baseline Characteristic
- C. # of ANC Screenings by Baseline Characteristic
- D. ANC Screening Rate by Baseline Characteristic

Group	Minimum Clozapine Use	Screening Evaluation Window	Lowercase letter			Notes
			1/1/2010 – 9/30/2015	10/1/2015 – 12/31/2019	1/1/2020 – Most Recent Data*	
Look 1	1 day	[-30, 0]	a	i	q	
Look 2	1 day	[1, 182]	b, e	j, m	r, u	<i>Patients in “e,” “m,” and “u” require 183-day washout</i>
Look 3	183 days	[183, 364]	c	k	s	
Look 4	365 days	[365, 729]	d	l	t	
Look 5	183 days	[1, 182]	f	n	v	
Look 6	365 days	[183, 364]	g	o	w	
Look 7	730 days	[365, 729]	h	p	x	

## Appendix L. Report Content Guide (Continued)

---

### Summary Tables 1-3

- Each summary table describes a different screening metric:
  - A.Length of Gaps Between ANC Screenings
  - B.Number of ANC Screenings
  - C.Monthly Rate of ANC Screenings
- Series “a” describes the metric categorically while series “b” describes the metric with continuous descriptive statistics.

**Appendix L. Report Content Guide (Continued)**
**Definition of “Adherent”**

Group	Minimum Clozapine Use	Screening Evaluation Window	Lowercase letter			Episode considered “adherent” if...		
			1/1/2010	10/1/2015	1/1/2020	All gaps between ANC screenings	# of ANC screenings <sup>†</sup>	ANC screening rate
			- 9/30/2015	- 12/31/2019	- Most Recent Data*			
<b>Look 1</b>	1 day	[-30, 0]	a	i	q	--	≥1	--
<b>Look 2</b>	1 day	[1, 182]	b	j	r	≤ 10 days	--	≥4/month
<b>Look 2*</b>	1 day	[1, 182]	e	m	u	≤ 10 days	--	≥4/month
<b>Look 5</b>	183 days	[1, 182]	c	k	s	≤ 10 days	25-27 or ≥25	≥4/month
